First payment was made for 175 industrial deaths in 1989. Sixteen of the 175 cases were pensioners who died from causes related to their compensable injuries or diseases. The 175 fatalities first paid in 1989 cannot be compared to the 218 fatalities reported in 1989 because some of the fatalities first paid in 1989 occurred and were reported in a prior year. There is a breakdown of these 218 reported fatalities on a subsequent page.

---

[1] Fatalities that occurred in the year and were reported to the Board by 20 February of the following year.

During the year, 153,545 claims were paid for the first time. Of those:

72,499 were for medical aid only;
72,425 were for temporary total disability;
3,446 were for permanent disability;
175 were for fatal accidents.

The Board set aside $6,066,452 in pension reserves to pay for hearing loss claims allowed in the year.

COSTS

Compensation costs totalled $421,805,931 in 1989 compared with $399,624,588 in 1988. The figures include actual payments made for medical aid and wage loss, as well as a reserve set aside for present and future payments of permanent disability and dependants' pensions awarded in 1989. The expense figures shown in Schedule 1 of the Finance and Statistics section show pension payments made during the year, not reserves set aside.

[3] Due to rounding, totals may not balance.

[4] The total cost of $421,805,931 differs from the total claims expense figure in Schedule 1: the former includes pension reserves set aside, the latter includes pension payments made. The claims costs of $421,805,931 are shown by subclass in Table A-2 of this report.

[1] Disallowed claims are those that fall within the scope of the Act but are not acceptable, usually because they are not work related.

[2] Claims awaiting application typically involve cases where the deceased's relatives elect to sue a third party rather than to claim compensation.

[1] The method of calculating average weekly wages was modified in 1987. The change is relatively small, but the 1987, 1988 and 1989 average weekly wages should not be compared to the average weekly wages from earlier annual reports. Average weekly wages for prior years on the new basis are available on request from Statistical Services.

[2] This category is "overexertion" and "bodily motion" accidents that usually result in strain injuries.

[3] There were about 2,000 claims uncoded for Type of Accident at the time the Annual Report was compiled. They are included in the Miscellaneous column.
